DESCRIPTION

Design & Build of 1,000 pupil, 3 storey post primary school of 7,861m² and all associated external works. The school comprises of a number of specialist rooms such as construction studies rooms, CAD rooms, offices, plant & data communications room, stores, 5 science laboratories, 2 home economics rooms and 45 classrooms.

The building is organised around a central triple height GP Hall, which is the effective heart of the building, around which two L-Shaped Plans are rotated about each other.

DELIVERY

This project was completed adjacent to a live occupied primary school with required significant coordination and communication with the school staff to ensure disruption was minimised. Supervised traffic management and planning for daily pupil drop off and collection times to the adjacent primary schools.
