Education

CLIENT

Dublin Institute of Technology

CONSULTANTS

Architect: DMOD Architects

Sweett Ireland – Quantity Surveyor

Gleeson Civil & Structural Engineers – Civil & Structural

Engineers - JV Tierney & Co – Mechanical & Electrical

Engineers

DESCRIPTION

These construction works consisted of the creation of 220m² of gallery space, alterations to create new emergency access, refurbishment of existing spaces and associated site works. All works were carried out in a live operational third level education campus in the urban area of Dublin city centre in which the public street and the adjoining properties were protected and maintained throughout the works. Access to the site was through a narrow archway which is part of a protected structure so great care was taken by Glenman to ensure that it was protected throughout the works.
